Rabbit anti Human anticoagulation Factor IX, Clone: [Polyclonal], Monoclonal NMB-RAHU/FIX

Article Name	Rabbit anti Human anticoagulation Factor IX, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-RAHU/FIX
Supplier Catalog Number	RAHu/FIX
Alternative Catalog Number	NMB-RAHU/FIX
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Product Description	The defined antibody reactivity is restricted to Factor IX as tested at the level of sensitivity of immuno-precipitation techniques. A single precipitin line is obtained in bidimensional electrophoresis, immunoelectrophoresis and double dial immunodi...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
UniProt	P00740
Buffer	Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added. It is reconstituted by adding 1

Source	Factor IX is a vitamin K-dependent glycoprotein, MW 55,400, and it consists of a single polypeptide chain. It is synthesized in the liver, stable for several days in fresh blood and for many months in fresh frozen plasma. It can be prepared as a stable c
Formula	Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added.
Application Notes	Precipitation assays. In immunoelectrophoresis in agarose-plates use 2 µl human plasma or equivalent against 120 µl antiserum. In double radial immunodiffusion use a rosette arrangement with 10 µl antiserum in 3 mm diameter center well and 2 µl plasma sa
