Product Datasheet

Rabbit anti Human beta-1 hemopexin, Clone: [Polyclonal], Monoclonal NMB-RAHU/HPX

Article Name	Rabbit anti Human beta-1 hemopexin, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-RAHU/HPX
Supplier Catalog Number	RAHu/Hpx
Alternative Catalog Number	NMB-RAHU/HPX
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Product Description	The reactivity of the antiserum is restricted to hemopexin as tested in immunoelectrophoresis and radial immunodiffusion. A characteristic single precipitin line is obtained with normal serum which shows a reaction of identity with the precipitin lin
Clonality	Monoclonal
Clone Designation	[Polyclonal]
UniProt	P02790
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added. Reconstitute the lyophilized
Source	Hemopexin is a haem-binding -globulin present in normal serum at a concentration of 0.8 to 1.0 mg/ml. Its molecular weight is 57,000. The carbohydrate content is 23%. It consists of one polypeptide chain. Purified hemopexin isolated from pooled human ser

Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added.
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 μ l serum or equivalent against 120 μ l antiserum. In double radial immunodiffusion use a rosette arrangement with 10 μ l antiserum in 3 mm diameter centre well and 2 μ l serum samples (neat and serially d
