Rabbit anti Human Ig lambda light chain (free and bound), conjugated with Biotin, Clone: [Polyclonal], Monoclonal NMB-RAHU/BJL(SD+HD)/BIO

| | |
|----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Article Name | Rabbit anti Human Ig lambda light chain (free and bound), conjugated with Biotin, Clone: [Polyclonal], Monoclonal |
| Biozol Catalog Number | NMB-RAHU/BJL(SD+HD)/BIO |
| Supplier Catalog Number | RAHu/BJL(SD+HD)/Bio |
| Alternative Catalog Number | NMB-RAHU/BJL(SD+HD)/BIO |
| Manufacturer | NordicMubio |
| Host | Rabbit |
| Category | Antikörper |
| Species Reactivity | Human |
| Conjugation | Biotin |
| Product Description | The reactivity of the antiserum is directed to the surface and hidden determinants of Ig lambda chain. A reaction is obtained with intact polyclonal or monoclonal immunoglobulins of the lambda type, as well as free lambda light chains. To identify li... |
| Clonality | Monoclonal |
| Clone Designation | [Polyclonal] |
| Buffer | Biotin-coupled purified hyperimmune rabbit IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. It is reconstituted by adding 1 ml sterile distilled water, spun |

| | |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Source | A pool of purified Bence Jones lambda proteins isolated from human urine. Freund's complete adjuvant is used in the first step of the immunization procedure. |
| Formula | Biotin-coupled purified hyperimmune rabbit IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. |
| Application Notes | ELISA, Immunocytochemistry, Immunohistochemistry (paraffin), Dot blot, Immunoblotting. |
