Product Datasheet

Rabbit anti Rat fibrinogen, Clone: [Polyclonal], Monoclonal NMB-RARA/FBG

Article Name	Rabbit anti Rat fibrinogen, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-RARA/FBG
Supplier Catalog Number	RARa/Fbg
Alternative Catalog Number	NMB-RARA/FBG
Manufacturer	NordicMubio
Host	Rabbit
Category	Antikörper
Product Description	The reactivity of the antiserum is restricted to rat fibrinogen molecule. In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against normal rat plasma a single precipitin line is obtained which shows a reactio...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added as it may interfere with the antibody activity. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No fore
Source	Fibrinogen (clotting factor I) is a heat labile beta glycoprotein present in plasma. It is the precursor of fibrin, which is the key protein constituting the network of the blood clot. Thrombin converts fibrinogen to fibrin by limited proteolysis. Fibrin

Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added as it may interfere with the antibody activity. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No fore
Application Notes	Precipitation assays.
