| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | Complement factor H/CFH Protein, Human (431a.a, HEK 293, His) is a recombinant complement factor H (CFH) protein with His tag. Human complement factor H, a central complement control protein, is a member of the regulators of complement activation fam... |
| Molecular Weight           | Approximately 48 kDa                                                                                                                                                                                                                                          |
| Purity                     | 98                                                                                                                                                                                                                                                            |
| Formula                    | 3075(Gene_ID)P08603-2 (E19-L449)(Accession)                                                                                                                                                                                                                   |
| Application Notes          | Recombinant Proteins                                                                                                                                                                                                                                          |
