| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | Protein G XPure Agarose Resin consists of recombinant Protein G covalently bound to highly crosslinked agarose beads. It provides a very stable bond that can greatly minimize leakage of the Protein G allowing for reuse of the affinity resin. The XPur... |
| Buffer                     | 50% (v/v) aqueous suspension containing 20% Ethanol                                                                                                                                                                                                           |
