| Manufacturer               | ProSci                                                                                                                                                                                                                                                        |
| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Application                | Blocking                                                                                                                                                                                                                                                      |
| NCBI                       | <a href="#">63978</a>                                                                                                                                                                                                                                         |
| UniProt                    | <a href="#">Q9GZV8</a>                                                                                                                                                                                                                                        |
| Buffer                     | PRDM14 peptide is supplied as 100 µg of dried peptide. When the peptide is reconstituted in 200 µL water, the concentration will be 0.5 mg/mL.                                                                                                                |
| Form                       | Lyophilized                                                                                                                                                                                                                                                   |
| Application Notes          | PRDM14 peptide is used for blocking the activity of PRDM14 antibody (catalog number 43-186 ). The PRDM14 antibody ships at 0.5 mg/mL and the STK36 Peptide ships as a 100 ug pellet. When peptide is reconstituted in 200 uL water, the concentration will be |
