Product Datasheet

PMIS2 Antibody, Rabbit, Polyclonal NSJ-RQ8036

Article Name PMIS2 Antibody, Rabbit, Polyclonal Biozol Catalog Number NSJ-RQ8036 Supplier Catalog Number RQ8036 Alternative Catalog Number NSJ-RQ8036 Manufacturer NSJ Bioreagents Host Rabbit Category Antikörper Application ELISA, WB Species Reactivity Human, Rat Immunogen E. coli-derived recombinant human protein (amino acids A47-R128) was used as the immunogen for the PMIS2 antibody. PMIS2 might function both as the ultimate factor regulating sperm transport into the oviducts and in modulating sperm-zona binding. Predicted to act upstream of or within binding activity of sperm to zona pellucida. Predicted to be integral component Clonality Polyclonal		
Supplier Catalog Number RQ8036 Alternative Catalog Number NSJ-RQ8036 Manufacturer NSJ Bioreagents Host Rabbit Category Antikörper Application ELISA, WB Species Reactivity Human, Rat Immunogen E. coli-derived recombinant human protein (amino acids A47-R128) was used as the immunogen for the PMIS2 antibody. PMIS2 might function both as the ultimate factor regulating sperm transport into the oviducts and in modulating sperm-zona binding. Predicted to act upstream of or within binding activity of sperm to zona pellucida. Predicted to be integral component Clonality Polyclonal	Article Name	PMIS2 Antibody, Rabbit, Polyclonal
Alternative Catalog Number NSJ-RQ8036 Manufacturer NSJ Bioreagents Host Rabbit Category Antikörper Application ELISA, WB Species Reactivity Human, Rat E. coli-derived recombinant human protein (amino acids A47-R128) was used as the immunogen for the PMIS2 antibody. Product Description Product Description Predicted to act upstream of or within binding activity of sperm to zona pellucida. Predicted to be integral component Clonality Polyclonal	Biozol Catalog Number	NSJ-RQ8036
Manufacturer NSJ Bioreagents Rabbit Category Antikörper Application ELISA, WB Species Reactivity Human, Rat E. coli-derived recombinant human protein (amino acids A47-R128) was used as the immunogen for the PMIS2 antibody. Product Description	Supplier Catalog Number	RQ8036
Host Rabbit Category Antikörper Application ELISA, WB Species Reactivity Human, Rat Immunogen E. coli-derived recombinant human protein (amino acids A47-R128) was used as the immunogen for the PMIS2 antibody. Product Description Product Description Predicted to act upstream of or within binding activity of sperm to zona pellucida. Predicted to be integral component Clonality Polyclonal	Alternative Catalog Number	NSJ-RQ8036
Category Antikörper Application ELISA, WB Species Reactivity Human, Rat Immunogen E. coli-derived recombinant human protein (amino acids A47-R128) was used as the immunogen for the PMIS2 antibody. Product Description Product Description Predicted to act upstream of or within binding activity of sperm to zona pellucida. Predicted to be integral component Clonality Polyclonal	Manufacturer	NSJ Bioreagents
Application ELISA, WB Species Reactivity Human, Rat E. coli-derived recombinant human protein (amino acids A47-R128) was used as the immunogen for the PMIS2 antibody. Product Description Product Description Predicted to act upstream of or within binding activity of sperm to zona pellucida. Predicted to be integral component Clonality Polyclonal	Host	Rabbit
Species Reactivity	Category	Antikörper
Immunogen E. coli-derived recombinant human protein (amino acids A47-R128) was used as the immunogen for the PMIS2 antibody. PMIS2 might function both as the ultimate factor regulating sperm transport into the oviducts and in modulating sperm-zona binding. Predicted to act upstream of or within binding activity of sperm to zona pellucida. Predicted to be integral component Clonality Polyclonal	Application	ELISA, WB
Product Description Predicted to act upstream of or within binding activity of sperm to zona pellucida. Predicted to be integral component Clonality Polyclonal	Species Reactivity	Human, Rat
Product Description transport into the oviducts and in modulating sperm-zona binding. Predicted to act upstream of or within binding activity of sperm to zona pellucida. Predicted to be integral component Clonality Polyclonal	Immunogen	•
	Product Description	transport into the oviducts and in modulating sperm-zona binding. Predicted to act upstream of or within binding activity of sperm to
UniProt A0A1W2PS18	Clonality	Polyclonal
THE TOTAL PARTY OF THE TOTAL PAR	UniProt	A0A1W2PS18
Purity Antigen affinity purified	Purity	Antigen affinity purified
Form 0.5mg/ml if reconstituted with 0.2ml sterile DI water	Form	0.5mg/ml if reconstituted with 0.2ml sterile DI water
Antibody Type Primary Antibody	Antibody Type	Primary Antibody

Application Dilute

Western blot: 0.5-1ug/ml, Direct ELISA: 0.1-0.5ug/ml
