| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Product Description        | Human Coagulation Factor XII (F12) ELISA Kit for detecting F12 in plasma. Species Reactivity: Human (Homo sapiens). Detection Range: 1.56-100ng/ml. Sensitivity: 0.55ng/ml. Format: 96-Well Plate. Assay Type: Double-antibody Sandwich. Detection Method:... |
| Range                      | 1.56-100ng/ml                                                                                                                                                                                                                                                 |
| Sensitivity                | 0.55ng/ml                                                                                                                                                                                                                                                     |
| NCBI                       | <a href="#">2161</a>                                                                                                                                                                                                                                          |
