| Product Description        | Human Cofilin 1 (CFL1) ELISA Kit for detecting CFL1 in tissue homogenates, cell lysates, cell culture supernates, other biological fluids. Species Reactivity: Human (Homo sapiens). Detection Range: 0.156-10ng/ml. Sensitivity: 0.055ng/ml. Format: 96-W... |
| Range                      | 0.156-10ng/ml                                                                                                                                                                                                                                                 |
| Sensitivity                | 0.055ng/ml                                                                                                                                                                                                                                                    |
