| Product Description        | Rat G Protein Coupled Receptor 131 (GPR131) Mini sample ELISA Kit for detecting GPR131 in tissue homogenates, cell lysates, other biological fluids. Species Reactivity: Rat ( <i>Rattus norvegicus</i> ). Detection Range: 0.625-40ng/ml. Sensitivity: 0.231ng/ml.... |
| Range                      | 0.625-40ng/ml                                                                                                                                                                                                                                                          |
| Sensitivity                | 0.231ng/ml                                                                                                                                                                                                                                                             |
