### Mini Samples ELISA Kit for Immunoglobulin M (IgM) USC-MEA543BO

|                            |                                                                                                      |
|----------------------------|------------------------------------------------------------------------------------------------------|
| Article Name               | Mini Samples ELISA Kit for Immunoglobulin M (IgM)                                                    |
| Biozol Catalog Number      | USC-MEA543BO                                                                                         |
| Supplier Catalog Number    | MEA543Bo                                                                                             |
| Alternative Catalog Number | USC-MEA543BO-48, USC-MEA543BO-96                                                                     |
| Manufacturer               | Cloud-Clone                                                                                          |
| Category                   | Kits/Assays                                                                                          |
| Species Reactivity         | Bovine                                                                                               |
| Range                      | 1.56-100ng/mL                                                                                        |
| Sensitivity                | The minimum detectable dose of this kit is typically less than 0.77ng/mL                             |
| UniProt                    | Infection immunity,Immune molecule,Hematology,                                                       |
| Samples                    | serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids |
| Application Notes          | Enzyme-linked immunosorbent assay for Antigen Detection.                                             |
