| Alternative Catalog Number | ABN-U0290-100                                                                                                                                                                                                                                                 |
| Manufacturer               | Abnova                                                                                                                                                                                                                                                        |
| Category                   | Sonstiges                                                                                                                                                                                                                                                     |
| Application                | Conjugation, FC                                                                                                                                                                                                                                               |
| Product Description        | Fluorescence Dye 570-M with Streptavidin conjugate. All the Fluorescent Dye M series products are designed to be maximally excited by one of the major light sources equipped in flow cytometers. Besides, in comparison with phycobiliprotein tandems, Fl... |
| Buffer                     | Water                                                                                                                                                                                                                                                         |
| Application Dilute         | Labeling via Streptavidin for fluorescence imaging and other fluorescence-based biochemical analysis. For most fluorescent streptavidin applications, a concentration of 1-20 ug/mL is sufficient. The optimal working dilution should be determined by the   |
