## Product Datasheet

### **IgE monoclonal antibody, clone BE5, IgG1, Clone: [BE5], Mouse, Monoclonal ABN-MAB6464**

|                            |                                                                           |
|----------------------------|---------------------------------------------------------------------------|
| Article Name               | IgE monoclonal antibody, clone BE5, IgG1, Clone: [BE5], Mouse, Monoclonal |
| Biozol Catalog Number      | ABN-MAB6464                                                               |
| Supplier Catalog Number    | MAB6464                                                                   |
| Alternative Catalog Number | ABN-MAB6464-100                                                           |
| Manufacturer               | Abnova                                                                    |
| Host                       | Mouse                                                                     |
| Category                   | Antikörper                                                                |
| Application                | ELISA, FC                                                                 |
| Species Reactivity         | Human                                                                     |
| Immunogen                  | Human IgE.                                                                |
| Product Description        | Mouse monoclonal antibody raised against IgE....                          |
| Clonality                  | Monoclonal                                                                |
| Clone Designation          | [BE5]                                                                     |
| Isotype                    | IgG1                                                                      |
| Buffer                     | In TBS, pH 8.0 (0.09% sodium azide)                                       |
| Form                       | Liquid                                                                    |

Application Dilute

ELISA Flow Cytometry (5 ug/mL) The optimal working dilution should be determined by the end user.
