| Application                | FC, IF                                                                                                                                                                              |
| Species Reactivity         | Rat                                                                                                                                                                                 |
| Immunogen                  | Rat IgG F(ab)2 fragment                                                                                                                                                             |
| Product Description        | Goat anti-rat IgG recognizes rat IgG F(ab)2 fragment. This secondary antibody was purified using antigen affinity chromatography. The antibody is conjugated with Phycoerythrin.... |
| Buffer                     | Lyophilized from 0.01 M Na <sub>2</sub> HPO <sub>4</sub> , 250 mM NaCl, pH 7.6 (0.05% (w/v) sodium azide, 10 mg/mL BSA (Immunoglobulin and Protease free)).                         |
| Form                       | Lyophilized                                                                                                                                                                         |
| Application Dilute         | The optimal working dilution should be determined by the end user.                                                                                                                  |
