| Manufacturer               | TargetMol                                                                                                                                                                                      |
| Category                   | Biochemikalien                                                                                                                                                                                 |
| Product Description        | DNA gyrase B-IN-3 (Compound A), with an IC50 of less than 10 nM, functions as an inhibitor of bacterial DNA gyrase B and demonstrates antibacterial activity against Gram-positive strains [1] |
| Molecular Weight           | 386.21                                                                                                                                                                                         |
| CAS Number                 | [2412834-56-9]                                                                                                                                                                                 |
| Formula                    | C14H9Cl2N3O4S                                                                                                                                                                                  |
| Target                     | DNA/RNA Synthesis                                                                                                                                                                              |
