## Anti-RFX5 (C-terminal) (RABBIT) Antibody, Rabbit, Polyclonal ABT-ASR4381

| Article Name               | Anti-RFX5 (C-terminal) (RABBIT) Antibody, Rabbit, Polyclonal  |
|----------------------------|---|
| Biozol Catalog Number      | ABT-ASR4381   |
| Supplier Catalog Number    | ASR4381   |
| Alternative Catalog Number | ABT-ASR4381-100UG   |
| Manufacturer               | Abcepta   |
| Host                       | Rabbit  |
| Category                   | Antikörper  |
| Species Reactivity         | Human   |
| Immunogen                  | RFX5 (C-terminal specific) peptide corresponding to a region near<br>the C-terminus of the human protein conjugated to Keyhole Limpet<br>Hemocyanin (KLH).  |
| Product Description        | DNA-binding protein RFX5 activates transcription from class II MHC promoters and recognizes X-boxes. It mediates cooperative binding between RFX and NF-Y. RFX binds the X1 box of MHC-II promoters. RFX5 may be associated with Bare Lymphocyte Syndrome |
| Clonality                  | Polyclonal  |
| Concentration              | 1.0 mg/mL   |
| UniProt                    | P48382  |
| Buffer                     | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2  |

## BIOZOL

| Purity            | This product was prepared from monospecific antiserum by<br>delipidation, salt fractionation and ion exchange chromatography.<br>Anti-RFX5 (C-terminal specific) may react with a minor band at 68<br>kDa which may represent an RFX5 breakdown product or unmodified<br>R |
|-------------------|--|
| Application Notes | This product was assayed by immunoblot and found to be reactive<br>against RFX5 (C-terminal specific) from a variety of fibroblast and B-<br>cell lysates at a dilution of 1:250 to 1:500 followed by reaction with<br>Peroxidase conjugated Affinity Purified anti-Rabb   |
