Product Datasheet

Anti-NFKB p65 NLS specific (RABBIT) Antibody, Rabbit, Polyclonal ABT-ASR5184

Article Name	Anti-NFKB p65 NLS specific (RABBIT) Antibody, Rabbit, Polyclonal
Biozol Catalog Number	ABT-ASR5184
Supplier Catalog Number	ASR5184
Alternative Catalog Number	ABT-ASR5184-100UG
Manufacturer	Abcepta
Host	Rabbit
Category	Antikörper
Species Reactivity	Human
Immunogen	This antibody was purified from whole rabbit serum prepared by repeated immunizations with the NFkB p65 peptide corresponding to the NLS of the human protein conjugated to KLH using maleimide. A residue of cysteine was added to the amino terminal end to
Product Description	NFkB was originally identified as a factor that binds to the immunoglobulin kappa light chain enhancer in B cells. It was subsequently found in non-B cells in an inactive cytoplasmic form consisting of NFkB bound to IκB. NFkB was originally identifie...
Clonality	Polyclonal
Concentration	1.0 mg/mL
UniProt	Q04206
Buffer	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Purity	This affinity-purified antibody is directed against the nuclear localization sequence (NLS) NLS of human p65 and is useful in determining its presence in various assays. The epitope recognized overlaps the NLS of the p65 subunit of the NFκB heterodimer.
Application Notes	Anti-NFκB p65 antibody has been tested in ELISA, ICC, WB, and IF. NFκB gel shift assays are assembled in 20 μl reactions containing 0.28 pmoles NFκB oligo in 10mM Tris (pH 7.6), 50 mM NaCl, 0.5 mM EDTA, 1.0 mM DTT, 10% glycerol. Some procedures specify t
