Product Datasheet

Anti-Hif3a (RABBIT) Antibody, Rabbit, Polyclonal ABT-ASR5226

Article Name	Anti-Hif3a (RABBIT) Antibody, Rabbit, Polyclonal
Biozol Catalog Number	ABT-ASR5226
Supplier Catalog Number	ASR5226
Alternative Catalog Number	ABT-ASR5226-100UG
Manufacturer	Abcepta
Host	Rabbit
Category	Antikörper
Species Reactivity	Mouse
Immunogen	This affinity purified antibody was prepared from whole rabbit serum produced by repeated immunizations with a synthetic peptide corresponding to an internal region near aa 575-600 of mouse Hif3 a (Hypoxia Inducible Factor).
Product Description	One of the most important factors in the cellular response to hypoxia is hypoxia-inducible factor (HIF), which transcriptionally activates genes encoding proteins that mediate adaptive responses to reduced oxygen availability. HIF is a member of the ...
Clonality	Polyclonal
Concentration	1.2 mg/mL
UniProt	Q0VBL6
Buffer	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Purity	This affinity-purified antibody is directed against mouse Hif3alpha protein. The product was affinity purified from monospecific antiserum by immunoaffinity purification. A BLAST analysis was used to suggest cross reactivity with Hif3a protein from mouse
Application Notes	This affinity-purified antibody has been tested for use in ELISA and western blot. Specific conditions for reactivity should be optimized by the end user. Expect a band approximately 72 kDa in size corresponding to Hif3 alpha protein by western blotting
