| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | The LILRB1/CD85j/ILT2 protein is a receptor for class I MHC antigens and recognizes multiple HLA alleles and H301/UL18 (human cytomegalovirus MHC homolog). Ligand binding induces inhibitory signals that downregulate immune responses. LILRB1/CD85j/ILT... |
| Molecular Weight           | 25-30 kDa                                                                                                                                                                                                                                                     |
| Purity                     | 95.00                                                                                                                                                                                                                                                         |
| Formula                    | 10859(Gene_ID)Q8NHL6-1 (G24-G221)(Accession)                                                                                                                                                                                                                  |
| Application Notes          | Recombinant Proteins                                                                                                                                                                                                                                          |
