| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Activation of PKC is one of the earliest events in the cascade leading to a variety of cellular responses such as secretion, gene expression, proliferation and muscle contraction. PKC isoforms have been classified in three groups: classical PKCs, whi... |
| Molecular Weight           | 1960.36                                                                                                                                                                                                                                                       |
| Purity                     | ~90% by HPLC and MS analysis                                                                                                                                                                                                                                  |
| Form                       | Supplied as a lyophilized powder                                                                                                                                                                                                                              |
