| Manufacturer               | US Biological                                                                                                                                                                                                                                                 |
| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA, WB                                                                                                                                                                                                                                                     |
| Immunogen                  | Recombinant protein corresponding to human VEGF expressed in E. coli.                                                                                                                                                                                         |
| Product Description        | VEGF (vascular endothelial growth factor) is a homodimeric, disulfide-linked glycoprotein involved in angiogenesis which promotes tumor progression and metastasis. It exhibits potent mitogenic and permeability inducing properties specific for the vas... |
| UniProt                    | <a href="#">P15692</a>                                                                                                                                                                                                                                        |
| Purity                     | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |
| Form                       | Supplied as a lyophilized powder from PBS, pH 7.2. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                                                                          |
