## Product Datasheet

### Sheep anti Guinea Pig IgM (Fc specific), Clone: [Polyclonal], Monoclonal NMB-SHAGP/IGM(FC)

Article Name	Sheep anti Guinea Pig IgM (Fc specific), Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-SHAGP/IGM(FC)
Supplier Catalog Number	ShAGp/IgM(Fc)
Alternative Catalog Number	NMB-SHAGP/IGM(FC)
Manufacturer	NordicMubio
Host	Sheep
Category	Antikörper
Product Description	The reactivity of the antiserum is restricted to the Fc part of the IgM molecule. In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against normal guinea pig serum a single precipitin line is obtained which s...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal sheep serum. No foreign proteins added. Reconstitute the lyophilized a
Source	Highly purified normal IgM isolated from pooled guinea pig serum. Freund's complete adjuvant is used in the first step of the immunization procedure.

Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal sheep serum. No foreign proteins added.
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 µl or equivalent against 120 µl antiserum. In double radial immunodiffusion (Ouchterlony) use a rosette arrangement with 10 µl in a 3 mm diameter center well and 2 µl serum samples (neat and serially d
