## Product Datasheet

### Sheep anti Mouse Ig lambda light chains (free and bound), conjugated with Biotin, Clone: [Polyclonal], Monoclonal NMB-SHAM/BJL(SD+HD)/BIO

|                            |   |
|----------------------------|---|
| Article Name               | Sheep anti Mouse Ig lambda light chains (free and bound), conjugated with Biotin, Clone: [Polyclonal], Monoclonal   |
| Biozol Catalog Number      | NMB-SHAM/BJL(SD+HD)/BIO   |
| Supplier Catalog Number    | ShAM/BJL(SD+HD)/Bio   |
| Alternative Catalog Number | NMB-SHAM/BJL(SD+HD)/BIO   |
| Manufacturer               | NordicMubio   |
| Host                       | Sheep   |
| Category                   | Antikörper  |
| Conjugation                | Biotin  |
| Product Description        | The reactivity of the antiserum is directed to the surface and hidden determinants of Ig lambda chain. A reaction is obtained with intact polyclonal or monoclonal immunoglobulins of the lambda type, as well as free lambda light chains. To identify li... |
| Clonality                  | Monoclonal  |
| Clone Designation          | [Polyclonal]  |
| Buffer                     | Biotin-coupled purified hyperimmune sheep IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. It is reconstituted by adding 1 ml sterile distilled water, spun |

|                   |  |
|-------------------|--|
| Source            | A pool of purified Bence Jones lambda proteins isolated from mouse urine. Freund's complete adjuvant is used in the first step of the immunization procedure.                                |
| Formula           | Biotin-coupled purified hyperimmune sheep IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. |
| Application Notes | ELISA, Immunocytochemistry, Immunohistochemistry (paraffin), Dot blot, Immunoblotting.   |
