Product Datasheet

Swine anti Human IgE (Fc specific), Clone: [Polyclonal], Porcine, Monoclonal NMB-SWAHU/IGE(FC)

Article Name	Swine anti Human IgE (Fc specific), Clone: [Polyclonal], Porcine, Monoclonal
Biozol Catalog Number	NMB-SWAHU/IGE(FC)
Supplier Catalog Number	SwAHu/IgE(Fc)
Alternative Catalog Number	NMB-SWAHU/IGE(FC)
Manufacturer	NordicMubio
Host	Porcine
Category	Antikörper
Product Description	The reactivity of the antiserum is restricted to the Fc part of the IgE molecule. In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against normal human serum containing monoclonal IgE a single precipitin lin...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal swine serum. No foreign proteins added. Reconstitute the lyophilized
Source	Highly purified monoclonal IgE isolated from human serum. Freund's complete adjuvant is used in the first step of the immunization procedure.

Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal swine serum. No foreign proteins added.
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 μ l serum or equivalent against 120 μ l antiserum. In double radial immunodiffusion (Ouchterlony) use a rosette arrangement with 10 μ l antiserum in 3 mm diameter center well and 2 μ l serum samples (neat
