## Product Datasheet

### Swine anti Human prealbumin, Clone: [Polyclonal], Porcine, Monoclonal NMB-SWAHU/PALB

Article Name	Swine anti Human prealbumin, Clone: [Polyclonal], Porcine, Monoclonal
Biozol Catalog Number	NMB-SWAHU/PALB
Supplier Catalog Number	SwAHu/pAlb
Alternative Catalog Number	NMB-SWAHU/PALB
Manufacturer	NordicMubio
Host	Porcine
Category	Antikörper
Product Description	In immunoelectrophoresis and double radial immunodiffusion against normal human serum the precipitin line obtained shows a reaction of full identity with the purified immunogen. The product does not react with any other proteins component of human se...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
NCBI	<a href="#">7276</a>
UniProt	<a href="#">P02766</a>
Buffer	Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled swine serum. No foreign proteins added. Reconstitute the lyophilized ant

Source	Transthyretin is the fastest protein in the immunoelectrophoresis pattern of human serum. It consists of four identical polypeptide chains with no carbohydrate. The molecular weight is 55,000 and the concentration in normal serum ranges from 100 to 400 $\mu\text{g}$
Formula	Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled swine serum. No foreign proteins added.
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 $\mu\text{l}$ human plasma or equivalent against 120 $\mu\text{l}$ antiserum. In double radial immunodiffusion use a rosette arrangement with 10 $\mu\text{l}$ antiserum in 3 mm diameter center well and 2 $\mu\text{l}$ plasma samples (neat and se
