## Anti-Hu CD59 Alexa Fluor 647, Clone: [MEM-43], AF647, Monoclonal EXB-A6-233-T025

Article Name Anti-Hu CD59 Alexa Fluor 647, Clone: [MEM-43], AF647, Monoclonal Biozol Catalog Number EXB-A6-233-T025  Supplier Catalog Number A6-233-T025  Alternative Catalog Number EXB-A6-233-T025  Manufacturer EXBIO  Category Antikörper  Application FC  Species Reactivity Human  Immunogen Thymocytes and T lymphocytes  Conjugation AF647  Product Description CD59 (protectin) is a small (18-20 kDa) GPI-anchored ubiquitously expressed inhibitor of the membrane attack complex (MAC). It is thus the key regulator that preserves the autologous cells from terminal effector mechanism of the complement cascade. C  Clonality Monoclonal		
Supplier Catalog Number  A6-233-T025  Alternative Catalog Number  EXB-A6-233-T025  Manufacturer  EXBIO  Category  Antikörper  Application  FC  Species Reactivity  Human  Immunogen  Thymocytes and T lymphocytes  Conjugation  AF647  CD59 (protectin) is a small (18-20 kDa) GPI-anchored ubiquitously expressed inhibitor of the membrane attack complex (MAC). It is thus the key regulator that preserves the autologous cells from terminal effector mechanism of the complement cascade. C	Article Name	Anti-Hu CD59 Alexa Fluor 647, Clone: [MEM-43], AF647, Monoclonal
Alternative Catalog Number EXB-A6-233-T025  Manufacturer EXBIO  Category Antikörper  Application FC  Species Reactivity Human  Immunogen Thymocytes and T lymphocytes  Conjugation AF647  CD59 (protectin) is a small (18-20 kDa) GPI-anchored ubiquitously expressed inhibitor of the membrane attack complex (MAC). It is thus the key regulator that preserves the autologous cells from terminal effector mechanism of the complement cascade. C	Biozol Catalog Number	EXB-A6-233-T025
Manufacturer EXBIO  Category Antikörper  Application FC  Species Reactivity Human  Immunogen Thymocytes and T lymphocytes  Conjugation AF647  Product Description CD59 (protectin) is a small (18-20 kDa) GPI-anchored ubiquitously expressed inhibitor of the membrane attack complex (MAC). It is thus the key regulator that preserves the autologous cells from terminal effector mechanism of the complement cascade. C	Supplier Catalog Number	A6-233-T025
Category Antikörper  Application FC  Species Reactivity Human  Immunogen Thymocytes and T lymphocytes  Conjugation AF647  CD59 (protectin) is a small (18-20 kDa) GPI-anchored ubiquitously expressed inhibitor of the membrane attack complex (MAC). It is thus the key regulator that preserves the autologous cells from terminal effector mechanism of the complement cascade. C	Alternative Catalog Number	EXB-A6-233-T025
Application  FC  Species Reactivity  Human  Thymocytes and T lymphocytes  Conjugation  AF647  CD59 (protectin) is a small (18-20 kDa) GPI-anchored ubiquitously expressed inhibitor of the membrane attack complex (MAC). It is thus the key regulator that preserves the autologous cells from terminal effector mechanism of the complement cascade. C	Manufacturer	EXBIO
Species Reactivity  Human  Thymocytes and T lymphocytes  Conjugation  AF647  CD59 (protectin) is a small (18-20 kDa) GPI-anchored ubiquitously expressed inhibitor of the membrane attack complex (MAC). It is thus the key regulator that preserves the autologous cells from terminal effector mechanism of the complement cascade. C	Category	Antikörper
Immunogen  Thymocytes and T lymphocytes  Conjugation  AF647  CD59 (protectin) is a small (18-20 kDa) GPI-anchored ubiquitously expressed inhibitor of the membrane attack complex (MAC). It is thus the key regulator that preserves the autologous cells from terminal effector mechanism of the complement cascade. C	Application	FC
Conjugation  AF647  CD59 (protectin) is a small (18-20 kDa) GPI-anchored ubiquitously expressed inhibitor of the membrane attack complex (MAC). It is thus the key regulator that preserves the autologous cells from terminal effector mechanism of the complement cascade. C	Species Reactivity	Human
Product Description  CD59 (protectin) is a small (18-20 kDa) GPI-anchored ubiquitously expressed inhibitor of the membrane attack complex (MAC). It is thus the key regulator that preserves the autologous cells from terminal effector mechanism of the complement cascade. C	Immunogen	Thymocytes and T lymphocytes
Product Description expressed inhibitor of the membrane attack complex (MAC). It is thus the key regulator that preserves the autologous cells from terminal effector mechanism of the complement cascade. C	Conjugation	AF647
Clonality Monoclonal	Product Description	expressed inhibitor of the membrane attack complex (MAC). It is thus the key regulator that preserves the autologous cells from
	Clonality	Monoclonal
Clone Designation [MEM-43]	Clone Designation	[MEM-43]
Isotype IgG2a	Isotype	IgG2a
Buffer Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide	Buffer	
Storage 2°C to 8°C	Storage	2°C to 8°C

Antibody Type	Monoclonal Antibody
Application Notes	Flow cytometry: The reagent is designed for analysis of human blood cells using 4 $\mu$ l reagent / 100 $\mu$ l of whole blood or 106 cells in a suspension. The content of a vial (0.4 ml) is sufficient for 100 tests.
