| Product Description        | Goat anti-mouse IgG (H&L), HRP conjugated, is a F(ab)2 fragment, of a secondary antibody which binds to mouse IgG in immunological assays. Antibodies are adsorbed against human IgG/serum. Antibody purity is >90% based on SDS-PAGE. Antibody solution m... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
| Purity                     | Immunogen affinity purified IgG, F(ab)2 fragment.                                                                                                                                                                                                             |
| Form                       | Lyophilized                                                                                                                                                                                                                                                   |
| Antibody Type              | Polyclonal Antibody                                                                                                                                                                                                                                           |
| Application Dilute         | 1 : 500-1 : 5000 (IHC), 1 : 10 000-1 : 50 000 (WB)                                                                                                                                                                                                            |

Application Notes

For reconstitution add 0,55 ml of sterile water, Let it stand 30 minutes at room temperature to dissolve, Prepare fresh working dilutions daily
